Definitions

- **Visiting Associate**: Often, a colleague of a Caltech professorial faculty member who is here to collaborate on research. They may be a professor on sabbatical from another university, a research scientist with an industry position, or a JPL employee conducting research with a Caltech faculty member. The person must have a permanent faculty position or its equivalent outside Caltech, to which they will return upon completion of their Caltech appointment.

- **Postdoctoral Scholar**: Postdoctoral scholars and senior postdoctoral scholars are temporary interim employees. Postdocs and senior postdocs always work under close supervision of one or more Caltech professorial faculty members. Postdocs and senior postdocs are a separate group, distinct from faculty, staff, and students.

- **Senior Postdoctoral Scholar**: Postdoctoral scholars are generally promoted to the rank of Senior Postdoctoral Scholar after three years. Time served in the ranks of postdoctoral scholar and senior postdoctoral scholar cannot exceed the maximum of nine years. Persons who have held a postdoctoral position at another institution may be appointed directly to the senior postdoctoral scholar rank.

- **Visitor**: The rank of Visitor is for someone who does not have a faculty position (or its equivalent) at another institution, but does have an established position or relationship, such as postdoctoral scholar, to which they will return upon completion of their Caltech appointment. A visitor must be nominated by an active faculty member who is a colleague and is responsible for making his or her stay at Caltech mutually beneficial.
